Product description:

- Latest IGBT inverter technology, the dynamic response speed is fast, and the output current is strong.
- Dual digital display of welding current so can be used with dual holder simultaneously.
- It has protection functions such as voltage anomaly, overheat overload, over current fault, short circuit, etc.
- It also can be used for going application on single holder usage.
- It is suitable for welding high and low-carbon steel, cast steel, stainless steel, alloy steel, steel bar butt welding and other materials.

Main technical parameters:

	ARC 630-2T
Phase	3PH
Input power voltage (V)	AC 415V*3PH ±15%
Frequency (Hz)	50/60
Rated input current (A)	31.5KVA*2
Input Current	47A*2
No-load voltage (V)	75V
Duty cycle (%)	100% @300A*2
Efficiency (%)	89%
Power factor	0.95
Output Current Range	20-300A*2
Shell protection degree	IP21S
Cooling Method	Air Cooling
Weight (kg)	25Kg
Dimensions (mm)	730X390X700
